1. The Basic Community Profile provides 32 tables containing key Family census characteristics of persons, families and dwellings for the following geographic levels: CD, SLA, LGA, CED, SED, Uc/L, SSD, SD, S. Dist., Postal Area, Suburb, Section of State, State, Australia. It is based on place of enumeration.

Family income

- 2. Information was collected from the 1996 Census of Population and Housing.
- 3. Each table title in the Community Profile consists of two parts. The first part lists the variables included in the table. The second part describes the table population.

Household

- 4. A glossary of terms and concepts used in the Community Profiles appears below.
- 5. For more information on classifications and Census concepts see the 1996 Census Dictionary (Cat No. 2901.0).

#### **GLOSSARY**

Household income

- Aboriginal and/or Origin
- 6. The 1996 Census was the first census to allow a person's origin to be Torres Strait Islander recorded as both Aboriginal and Torres Strait Islander; prior to this only one or the other could be recorded.

Commonwealth **Electoral Divisions** (CEDs)

7. Some CEDs cross State and Territory boundaries. The implication of this is that State totals derived from CEDs will not equal the official State to Nfd counts. Therefore State totals will not be provided for the BCP at ¢ED level.

Overseas visitor

Employed full-time/ part-time

8. Employed 'full-time' means that the person worked 35 hours or more in all jobs during the week prior to Census night. Employed 'part-time' means that the person worked less than 35 hours in all jobs during the week prior to Census night.

Employed full-time/ part-time (cont'd)

9. For Census purposes, people who stated they were employed, but worked zero hours in the week prior to Census night have been coded Place of 'employed part-time'. enumeration

- 10. A family is defined as two or more persons, one of whom is at le 15 years of age, who are related by blood, marriage (registered or d facto), adoption, step or fostering, and who are usually resident in the same household. Family tables include same sex couples.
- 11. Family income is the sum of the personal incomes of each reside family member aged 15 years and over. Family income is not applicable to non-family households such as group households or lo person households; or to people in non-private dwellings.
- 12. A household is defined as a group of two or more related or unr people who usually reside in the same dwelling, who regard themse as a household, and who make common provision for food or other essentials for living; or a person living in a dwelling who makes provision for his/her own food and other essentials for living, withou combining with any other person.
- 13. For Census purposes, the total number of households is equal to total number of occupied private dwellings.
- 14. Household income is the sum of the personal incomes of each resident household member aged 15 years and over. If any household member did not state their income, or was temporarily absent, household income is not calculated. These households fall into the 'Partial income stated' category.
- 15. Nfd means 'not further defined'.
- 16. In the 1996 Census, overseas visitors were treated differently compared to previous censuses. In 1996, age, sex and registered marital status were the only person variables recorded for overseas whereas in previous censuses, information on all topics at the perso was recorded. For further information please contact the ABS and r a copy of Census Fact Sheet 15.
- 17. The Census count, based on place of enumeration, is a count of person who spent Census night in Australia. People are counted wh they are on Census night, which may not be where they usually live.
